<b>3 generic prescription drugs (as applicable)<sup>b</sup></b>	
None	

<sup>a</sup>**Wholesale Acquisition Cost (WAC)** as published by First Databank (FDB) represents the manufacturer's published catalog or list price for a drug product to wholesalers as reported to FDB by the manufacturer. WAC does not represent actual transaction prices and does not include prompt pay or other discounts, rebates, or reductions in price. FDB does not perform any independent investigation or analysis of actual transaction prices for purposes of reporting WAC. FDB relies on manufacturers to report or otherwise make available the values for the WAC.

For more information about FDB's drug pricing policy, visit <https://www.fdbhealth.com/drug-pricing-policy>.

<sup>b</sup>**The Uniform System of Classification** Therapeutic Classification schema was used to determine similar generic drugs. The **HCFA Drug Category of "Non-Innovator Multi-source"** as supplied on the CMS (formerly HCFA) quarterly update was used to determine the generic status of the drug products. This list does not imply that the generic prescription drugs on this form are interchangeable or have the same efficacy or safety. Please refer to each product's FDA-approved label and indication for further information.
